

Use of Global Alliance for Rabies Control materials and crediting

The Global Alliance for Rabies Control provides tools and training to build in-country skills and knowledge on essential elements of rabies control programmes, enabling countries to strengthen their efforts to eliminate rabies in a systematic way. In addition, resources such as posters, imagery and educational booklets are freely available for use through the website.

We ask that whenever you use any of these resources for online communications, presentations or any other activities, you credit the author/creator. Depending on the resource, this may be the Global Alliance for Rabies Control, or another organisation.

The **standard credit** would be:

Source: Global Alliance for Rabies Control (<https://rabiesalliance.org>)

When **social media** is used, we would be grateful if you could thank us by tagging us through #GARC and @RabiesAlliance

Please [contact us](#) if you have any queries or need more information.
