

Rabies Epidemiological Bulletin Online training: Level 1

Objectives

During the Level 1 workshop you will be introduced to the Rabies Epidemiological Bulletin (REB) and learn about the following items:

- How to log in to the REB
- How to update your user profile
- How to use the messaging function
- How to submit data in the REB
- How to see and review data using your country's "Dashboard"

Expected outcomes

At the end of the Level 1 workshop you will be able to submit country-specific data onto the REB. You will also be able to view and use the analysed data that you have submitted for official reports and decision making.

Certification

Upon successful completion of the REB Level 1 course, each participant will receive a certificate of achievement from GARC. The certified individual is recognised as a REB Level 1 user and qualifies to register for the REB Level 2 course.
