Lesson Exemplars for Rabies Education

This instructional material was collaboratively developed and reviewed by educators from public schools with technical guidance from the National Rabies Prevention and Control Committee. We encourage teachers and other education stakeholders to email their feedback, comments, and recommendations to the Department of Education at action@deped.gov.ph.

We value your feedback and recommendations.
INTRODUCTION

Rabies is a highly fatal viral disease that usually affects dogs and can be transmitted to humans. It is estimated that every 10 minutes, one person die of rabies in the world. Every year, 59,000 people die of the disease wherein 40% are children less than 15 years of age. In the Philippines, an average of 200 to 250 Filipinos die of rabies annually, 30% of which are children. Animal bite incidence is also rapidly increasing with 699,705 animal bite victims in 2015 to 1,130,873 in 2017 wherein almost half of the bites reported are in children.

The National Rabies Prevention and Control Committee (NRPCC) provide direction regarding the implementation of the National Rabies Prevention and Control Program as mandated by the Anti-Rabies Act of 2007 (Republic Act 9485). The inter-agency, intersectoral committee is led by the Department of Agriculture (DA) in collaboration with the Department of Health (DOH), Department of Education (DepEd), Department of Interior and Local Government (DILG), Department of Environment and Natural Resources (DENR), professional organizations (Philippine Veterinary Medical Association), and non-government organizations such as the Global Alliance for Rabies Control (GARC).

Under the Anti-Rabies Act, DepEd was given the mandate to strengthen the national rabies education program through the school health curriculum. In support to this, DepEd has been coordinating with GARC and other member agencies/organizations of NRPCC to integrate rabies education in the delivery curriculum since December 2016 in terms of development of lesson exemplars.

These lesson exemplars will provide an effective delivery on rabies education for teachers. It enables learners engage in relevant, meaningful experiences and activities that can be connected to real life situations.

This national rabies education integration initiative is expected to benefit an estimated 21 million Kinder to Grade 10 learners in more than 46,000 schools including teachers, school health personnel and parents as well as the community as a whole. Key messages incorporated in the 78 lesson exemplars developed include the following: rabies as a disease; animal bite prevention; animal bite management; dog vaccination; animal welfare and responsible pet ownership.

- e. I bathe them.

(The teacher will write the answers of the learners on the board.)

11. Why do you need to love them? (I love my pet because he/she is part of our family.)

12. Have you been bitten by a dog or cat?

13. What did you and your parents do?

(Let the learners share their experiences.)

---

### C. Presenting examples/instances of the new lesson

### D. Discussing new concepts and practicing new skills #1

(Time allotment: 15 minutes)

1. **Say:** There are different ways on how we show love to our pets.

   Listen and repeat after me.
   - a. I feed them.
   - b. I give them clean water to drink.
   - c. I give my pet a clean shelter.
   - d. I play with them.
   - e. I bathe them.

2. **Say:** Like you, a boy named Bino has a pet. He loves his pet so much.

3. **Ask:** Do you want to know how Bino shows his love to his pet?

4. Let the learners listen to the story “Bino, Buboy, and their Pet Dog, Bantay, True Friends!”

5. Ask questions once in a while to elicit proper ways of taking care of animals/pets.
One morning, the parents' Bino gave him a surprise. Yahoo! A puppy! I will name him Bantay. “Thank you, Dad. Thank you, Mom,” Bino said.

**Questions:**
1. **What was Bino’s parents surprise for him?** *(a puppy)*
2. **What did Bino tell his dad and mom when he got his puppy?** *(Thank you, Dad. Thank you, Mom.)*
   - **What name did Bino give his new puppy?** *(Bantay)*

Bino loves Bantay so much. Everyday he feeds and plays with him. One Saturday morning, Bino asked permission from his mom if he can take Bantay to the playground. “Okay, son. Make sure you get hold of his lace very tightly as he might escape and accidentally bite someone,” his mom instructed.

**Questions:**
- **How does Bino take care of Bantay?** *(Bino feeds and plays with him.)*
- **Where does Bino want to take Bantay?** *(He wants to take Bantay to the playground.)*

Bino with his friend, Buboy, happily played with Bantay. After playing, Bino and Buboy fed Bantay. While Bantay was eating, Buboy lifted Bantay.

**Questions:**
- **What did Buboy do while Bantay is eating?** *(Buboy lifted Bantay.)*
- **Was it right for Buboy to lift Bantay while he was eating?** Why? *(No. Bantay might bite him.)*

"Ouch, Bantay bit me!" Buboy shouted. They immediately went to Buboy’s home. They told Buboy’s mom that he was bitten by Bantay.

**Questions:**
- **What did Bino and Buboy do after Buboy was bitten by Bantay?** *(They told Buboy’s Mom about what Bantay did to Buboy.)*

Buboy’s mom immediately washed the wounds with soap and clean running water for 15 minutes. “We should now go to the Animal Bite Treatment Center (ABTC) for a check-up,” his mother said.
Questions:
What did Buboy’s mom do upon knowing he was bitten by a dog? (She washed the wound with soap and clean running water for 15 minutes.)
What else did the mother say? (His mom told Buboy that they should go to the Animal Bite Treatment Center (ABTC) for check-up.)

At the ABTC...
Buboy got anti-rabies vaccine injection.
“Kids, it is right that you told mom immediately that Buboy was bitten by a puppy,” the doctor said.
“Mom is also right in washing the wound with soap and clean running water. It is also good that you immediately brought Buboy here to get an anti-rabies vaccine injection,” the doctor explained.

Questions:
What are the things that the doctor told Buboy?
Answers:
Let your parents know immediately if bitten by a dog.
Clean the wound with soap and clean running water.

“You should take good care of our pet dog. Do not go near him when he is asleep or is eating so he won’t bite you,” the doctor reminded. He added, “In case bitten by a dog, clean the wound and go to ABTC. Observe the dog for 14 days if there are changes in its behavior.”

From then on, they refrained from disturbing Bantay when he is eating or sleeping.
Bino and Buboy became good caretakers of Bantay.
Bino treated Bantay as one of his real true friends.

Questions:
What are the other things that the doctor reminded the two friends to do?
Take good care of our pet.
Do not go near the dog when he is asleep or is eating so he won’t bite you.
Go to the nearest Animal Bite Treatment Center (ABTC) for treatment.
Observe the dog for 14 days if there are changes in its behavior.

(Teacher may use the copy of the story if video is not available.)

E. Discussing new concepts and practicing new skills #2
(Time allotment: 15 minutes)
1. Say: There are different ways on how we show love to our pets.

F. Developing mastery (leads to Formative Assessment 3)
Activity: (Time allotment: 5 minutes)
1. Call 2 to 3 learners who will share their experiences in taking care of their pet/s?
2. Ask: What do you feel after doing your task? Why?

G. Finding practical applications of concepts and skills in daily living
Day 2
Activity: (Time allotment: 20 minutes)
1. Based on the story listened to, animals/pets have different needs. We should provide their needs because they are part of our family. We should not go near them when they are sleeping or eating so they won’t bite us.
2. Look at the pictures and tell something about each picture.

(Annex 2 & 3)
Possible descriptions:
Picture A:
  a. a happy family in the dining room
  b. a happy family eating lunch/dinner
Picture B:
  a. stray dog and cat in a street looking for food
  b. hungry dog and cat in the street

3. What do you think do the dog and cat in picture B need?

Possible answers:
  a. Food
  b. Clean water
  c. Shelter
  d. Air
(Teacher will write the answers on the board.)

4. Let the learners listen to a song “The Needs of an Animal”.
   For animals to stay alive
   They need 4 things
   I would not lie
   They need food
   So they can grow
   And they need water
   Just like so
   They need shelter
   A place to live
   And they need air
   They breathe in
   It’s our job to give animals care
   Sing their needs if you dare
   Need 1
   Food
   Need 2
   Water
   Need 3
   Shelter
   Need 4
   Air
(Teacher may ask the learners to sing as they listen to the song.)

5. Based on the song listened to, what are the needs of an animal/pet?
(Teacher may use the video of the song by accessing the link https://www.youtube.com/watch?v=k4UDf3tF_O4 depending on the availability of the resources.)
(Teacher may change the song to a chant or a poem depending on the interest of the learners.)

TEACHER’S HANDOUT

Teacher needs to prepare the following before the execution of the lesson:
1. Download the following:
   - download video/story “Si Bino, si Buboy, at si Bantay, Magkaibigang Tunay” (https://www.youtube.com/watch?v=9y7pxxmkSw0)
   - download song “The Needs of an Animal.” (https://www.youtube.com/watch?v=k4UDi3tF_O4)
     (If the video of the story and song is not available, teacher may use the attached copy of the story and the lyrics of the song.)

Annex 3
ACTIVITY SHEET

Draw the needs of an animal/pet inside each circle.
Si Bino, si Buboy, at si Bantay, Magkakaibigang Tunay

“O sige, anak, huwag mong aalisan ng tali si Bantay at baka makagat,” ang bilin ni Nanay.

Masayang nakipaglaro si Bino kay Bantay, kasama ang kanyang kaibigang si Buboy. Pagkatapos nilang maglaro, pinakain nina Bino at Buboy ang tutang si Bantay.

Tinurukan si Buboy ng bakuna laban sa rabies.

“Mga bata, tama na sinabi ninyo agad kay Nanay na nakagat ng tuta si Buboy,” ang sabi ng doktor.

“Nanay, tama rin pong hinugasan ninyo ang sugat gamit ang sabon at malinis na tubig. Tama din pong dinala ninyo agad si Buboy dito sa ospital para maturukan laban sa rabies,” ang paliwanag ng doktor.

“Dapat ninyong tandaan na alagaang mabuti ang mga hayop. Huwag lumapit sa natutulog o kumakain na hayop upang hindi makagat,” paalala ng doktor.

“Kung kayo ay kinagat ng aso, obserbahan ang aso sa loob ng labing-apat na araw at kumunsulta sa beterinaryo,” dagdag na paliwanag ng doktor.

At simula noon, hindi na nila ginagambala pa si Bantay kapag ito ay kumakain o natutulog.

Si Bino at si Buboy ay naging mabuting tagapag-alaga ni Bantay. Itinuring ni Bino si Bantay na isa sa kanyang kaibigang tunay.

One morning, Bino’s parent gave him a surprise. Yahoo! A puppy! I will name him Bantay. “Thank you, Dad. Thank you, Mom,” Bino said.

Bino loves Bantay so much. Everyday he feeds and plays with him. One Saturday morning, Bino asked permission from his mom if he can take Bantay to the playground. “Okay, son. Make sure you get hold of his lace very tightly as he might escape and accidentally bite someone,” his mom instructed.

## I. Objectives

### A. Content Standards

The learner demonstrates understanding of whole numbers up to 100, ordinal numbers up to 10\textsuperscript{th}, money up to PhP100 and fractions 1/2 and 1/4.

### B. Performance Standards

The learner is able to:

1. Recognize, represent and order whole numbers up to 100 and money up to PhP100 in various forms and contexts.
2. Recognize and represent ordinal numbers up to 10\textsuperscript{th}, in various forms and contexts.

### C. Learning Competencies/Objectives

Visualizes, represents and orders sets from least to greatest and vice versa.

# Mathematics 1 (m1ns-1f-9.1)

## I. Objectives

### A. Content Standards

The learner demonstrates understanding of whole numbers up to 100, ordinal numbers up to 10th, money up to PhP100 and fractions 1/2 and 1/4

### B. Performance Standards

The learner is able to...

1. Recognize, represent, and order whole numbers up to 100 and money up to PhP100 in various forms and contexts.
2. Recognize, and represent ordinal numbers up to 10th, in various forms and contexts.

### C. Learning Competencies/ Objectives

Reads and writes numbers up to 100 in symbols and in words.

(M1NS-1f-9.1)

## II. Content

**IV. PROCEDURES**

**A. Reviewing previous lesson or presenting the new lesson**

**Remember Me!**

1. The teacher will present the Number Chart in symbols and in words to the pupils.  
   (This could be given in any of the following forms: in tarpapel, Power Point presentation or individual copy for pupils)

2. The Teacher will guide the pupils to read the numbers in the number chart.

Materials needed: (Number Chart 0-100 written in figures and in words)  
(5 minutes)

**B. Establishing a purpose for the lesson**

**Guide questions:**  
(The teacher will show the calendar to the pupils)

*Ask:* Class, what is this? **(calendar)**

*Say:* Let us read the following numbers in the calendar. *Look at the encircled number in the calendar. I marked it because I want you to know that this day is the Celebration of World’s Rabies Day.*

*(The teacher will show to the pupils the encircled number on the calendar)*

*Ask:* What day do we celebrate World’s Rabies Day?  
**(Every 28th day of September)**

*Why do you think is this event important to us? (It is celebrated annually to raise awareness about Rabies prevention.)*

*Who among you here know about bite management?*  
*Say:* In order for you to understand the importance of animal bite management. I will present a short story entitled
### C. Presenting examples/instances of the new lesson

1. The teacher will present the short story to the pupils.

   **A Day to Remember**

   Original Story by: Melanie E. Edquilang

   Teacher Lanie remembers the day when a dog has bitten her during home visitation. Thanks to her three alert friends. They washed her wound with soap under running water for 15 minutes. Then, they put iodine on the wound to clean it.

   After the first aid was given, they went to Animal Bite Treatment Center (ABTC) for consultation and proper medication. The doctor also advised them to observe the dog’s behavior for two weeks.

   Since then, Teacher Lanie continues in joining the World’s Rabies Day being celebrated every September 28. She supports the Global Alliances for Rabies Control (GARC) campaign on Rabies Awareness and Anti – Rabies Vaccination for animals.

   (Note: Teacher will show the illustrations to the pupils while reading the short story – Refer to Teacher’s Handout No. 1)

2. Answer the following questions.
   a. Who is the character in the Story? *(Teacher Lanie)*
   b. What happened to Teacher Lanie? *(she was bitten by a dog)*
   c. Who helped Teacher Lanie? *(her three alert friends)*

3. What did they do to her wounds? *(They washed her wound with soap under running water for 15 minutes. Then, they put iodine on the wound to clean it)*

4. What did they do after the first aid was given? *(they went to Animal Bite Treatment Center (ABTC) for consultation and proper medication)*

### IV. PAMAMARAAN

**A. Balik-aral o pagsisimula ng bagong aralin**

Ihahanda ng guro ang mga mag-aaral sa talakayan sa araw na ito.
Ang kaayusan ng klase ay sisiguruhin ng guro upang maging mabunga ang talakayan.

**1. Paghahabi ng layunin ng aralin**

Basahin ang kuwento “Si Dave ang Batang Matapat” sa klase at itanong ang mga sumusunod: (10 minuto)
1. Sino ang pangunahing tauhan sa kuwento?
2. Ano-ano ang mga katangian ni Dave ayon sa kuwento?
3. Paano nakatulong ang mga katangian ito sa kanyang pamilya?
4. Mahalaga ba ang pagiging matapat sa lahat ng oras? Bakit?
   - Bibigyang diin ng guro ang aral mula sa kuwento, iuugnay niya ito sa mga sagot ng mga mag-aaral.

**B. Pag-uugnay ng mga halimbawa sa bagong aralin**

(5 minuto)
1. Ang Gawain 1 (Attachment A) ay sasagutan ng mga mag-aaral.
2. Maaaring gumawa ng maraming kopya ng Attachment A bago ang talakayan ayon sa bilang ng mga mag-aaral sa klase.
4. Itanong: Ano ang inyong natutunan sa ating gawain?
   **Sagot:** Kapag may pagsusulit, nakakita ng laruan hindi sa iyo, at naglalaro mahalagang isabuhay sa lahat ng oras ang pagiging matapat.

**C. Pagtatalakay ng bagong konsepto at paglalahad ng**

Sabihin: Ang pagiging matapat ay lubhang mahalaga sa lahat ng pagkakataon. Kung ikaw ay nakagat o nasaktan ng alagang hayop sa bahay, ano ang gagawin mo?
Bagong kasanayan #1

Balikan ang kuwentong binasa at itanong ang mga sumunsunod:
   1. Anong hayop ang alaga ni Dave?
   2. Anong nangyari kay Dave habang hinihimas niya si Bantay?
   3. Ano ang ginawa ng nanay ni Dave sa kanyang sugat?

   • Hayaang makapagpaahayag ang mga mag-aaral ng sagot, ang kaayusan ng pagsagot ng mga mag-aaral ay sisiguruhin ng guro. Maaaring tumawag ang guro ng mag-aaral na sasagot sa katanungan.
   • Ihanda ang Attachement B ayon sa bilang ng mga mag-aaral.
   • Pakulayan ang larawan sa Attachement B sa mga mag-aaral.
   • Iproseso ng guro ang gawain sa mga mag-aaral. Bigyang diin ang tamang pangangalaga ng sugat na dulot ng kagat ng alagang hayop at hikayatin ang mga mag-aaral na ibahagi ito sa kanilang mga magulang.

TEACHER’S HANDOUT

PAGHAHABI NG LAYUNIN NG ARALIN
1. Sa pasimula ng aralin ay ihahanda ng guro ang mga mag-aaral para sa proseso ng pagkatuto.
2. Ikukuwento ang “Si Dave, Ang Batang Matapat”.
3. Sa paghahahi ng layunin ay itatanong ng guro ang mga gabay na tanong at iproproseso ang mga kasagutan ng mga mag-aral. Palalimin ang kasagutan ng mga mag-aaral at sabihin na:
   ✓ Tulad ni Dave sa kwentong ating binasa, mga bata, lubhang napakahalaga ang pagiging matapat sa lahat ng oras. Ang pagiging matapat ni Dave ay nakatulong upang maagapang magamot ang kaniyang sugat na natamo dahil sa pagkagat sa kanya ni Bantay.

PAG-UUGNAY NG MGA HALIMBAWA SA BAGONG ARALIN
1. Iuugnay ng guro ang Gawain 1 sa aralin at iproproseso ang mga kasagutan ng mga mag-aaral. Hahayaang makapagpahayag ang mga mag-aaral ng kanilang reaksyon o opinyon. Bigyang diin ang kaisipang:
   ✓ Ang pagiging matapat ay ang pagsasabi ng totoo sa mga magulang o nakatatanda at sa iba pang kasapi ng mag-anak. May magandang maidudulot ito sa ating buhay sapagkat magiging maayos ang samahan ng ating pamilya. Mamahalin tayo ng ating pamilya kapag tayo ay matapat sa lahat ng bagay.

   Dapat nating tatandaan na kahit maamo ang ating mga alagang hayop sa bahay ay may kakayahan pa rin silang mangagat o manakit. Kapag naglalaro sa labas ng bahay o paaralan at may mga hayop sa paligid ay ibayong pag-ingat ang kailangan. Sabihin agad ito sa nakatatanda lalo na kapag ito ay nagpapakita ng hindi pangkaraniwang kilos.

   Ang mga hayop tulad ng pusa at aso na nasa ating tahanan o sa ating paligid ay maaaring magkaroon ng RABIES. Ito ang virus na mga magulang o katapat ng mag-aaral ay maaaring magkaroon ng RABIES. Ito ang virus na maaaring makuha o pagkakaroon ng kagat sa mga hayop sa bahay o sa parang. Hindi lahat ng hayop ay may kagat na may rabies subalit ibayong pag-ingat pa rin ang ating kailangan para sa ating kaligtasan.
Kapag kayo ay nakagat ng aso o pusa gawin ang mga sumusunod:

- Hugasan ang sugat ng sabon sa dumadaloy na tubig.
- Linisin ang sugat na kinagat ng aso o pusa gamit ang *tincture of iodine*.
- Agad na komunsulta sa doktor at pumunta sa Animal Bite Treatment Center (ABTC) sa inyong lugar.

**PAGLALAHAT NG ARALIN**

Lagumin ang aralin sa pamamagitan ng mga gabay na katanungan, bigyang pansin ang sumusunod na kaisipan.

✔ Ang pagsasabi ng TOTOOT sa magulang at nakatatanda ay isang paraan upang mapanatili ang maayos na ugnayan. Gawin ito sa lahat ng oras. Kahit anong mangyari ay mahalagang sabihin ang totoo.

**Paalaala:**

*Ang mga pusa at aso ay maaaring makapanakit sa pamamagitan ng pagkalmot o pagkagat. Kaya kapag tayo ay nakalmot o nakagat sabihin agad sa mga magulang ka pag nasa tahanan at sa inyong guro naman kapag kayo ay nasa paaralan. Ang kagat ng mga aso at pusa na may rabies ay maaaring pagmumulan ng virus at ito ay lubhang mapanganib.*

**Susi sa Pagwawasto sa Karagdagang Gawain: Tukuyin Mo!**

1. Pusa, kulay pula. Sapagkat ang pusang may taglay na rabies ay pagmumulan nito.
2. Ibon, kulay dilaw.
3. Isda, kulay dilaw.
4. Aso, kulay pula. Sapagkat ang asong may taglay na rabies ay pagmumulan nito.

Ang kuwentong babasahin ng guro sa pagsisimula ng aralin.

**Si Dave, ang Batang Matapat**
Akda ni: *Mauricio F. Angeles*
SDO-Nueva Ecija

Gawain 1: Ugaling Matapat, Bilugan Mo!

Panuto: Bilugan ang mga larawang nagpapakita ng ugaling katapatan.
**Gawain 2: Sabihin kay Nanay at Tatay, Ito ang Dapat Gawin!**

Panuto: Kulayan ang mga hakbang na dapat gawin kapag ikaw ay nakagat ng hayop, at ito ay ibabahagi kay nanay at tatay.
Pagtataya

Gawain 3: Matapat ba Ito at Dapat Ipagmalaki?

Pangkatang Gawain: Mag-Thumb up kung ang larawan ay nagpapakita ng matapat na ugali, at Thumb down kung ang larawan ay nagpapakita ng hindi matapat na ugali.

1. Pagsasabi kay tatay kapag ikaw ay nadapa

2. Pagtatago ng napulot na laruan hindi sa iyo
3. Pagsasabi sa lola na si bunso ay nakagat ng tuta

4. Pagsauli ng napulot na pera

5. Pagsasabi kay kuya na nakagat ng aso ang pinsan
Remedial Activity

Tukuyin Mo!

Panuto: Kulayan ng pula kapag ang hayop ay maaaring makapanakit at maaaring makapagdulot ng rabies sa mga bata at dilaw kapag ito ay walang kakayahang manakit.
Karadagang Gawain: Tapat na Gawain, Ugaliin Mo! (Remedial Activity)

Panuto: Lagyan ng 😊 sa kahon kung ang larawan ay nagpapakita ng gawaing tapat at lagyan ng 😒 sa kahon kung ang larawan ay hindi nagpapakita ng gawaing tapat.
**Panlinang na Gawain 1: Tapat na Gawa, Aalamin ko!**

Panuto: Idikit sa tamang kolum ang nakaguhit na sitwasyong ibibigay sa iyo ng iyong guro.

**TEACHER’S HANDOUT**

Personal information is any information that uniquely identifies an individual. This is used to determine basic details about a pupil and her / his family and how to contact them in case of emergency. This also entails the details of a pupil’s residence and the people she / he is closely (if not family) related to. Personal information may include the following data:

1. name;
2. address;
3. telephone number;
4. age;
5. birthday;
6. parents’ names, work and contact details; and
7. person to contact in case of emergency

Knowing the helpers of the community helps a pupil become safe. Community helpers (such as teacher, police officer, nurse, soldier, etc.) are people whom the pupil can trust with her/his personal information and who can help her / him, in case of stressful situations, such as getting lost or meeting an accident. Moreover, relatives, close friends, neighbors, and classmates may also be trusted and asked for help. These people may know the pupil at a personal level and will not harm her / him.

**PERSONS TO ASK FOR HELP IN CASE OF ACCIDENTS AND / OR INJURIES IN SCHOOL:**

1. school doctor, nurse, or clinic teacher;
2. teacher;
3. principal;
4. security guard, policeman, or barangay tanod; and
5. janitors, school staff, or personnel

**MGA PAUNANG LUNAS SA KAGAT NG ASO:**

1. Sabihin kay nanay at tatay na ikaw ay nakagat ng aso.
2. Hugasan agad agad ang sugat gamit ang sabon at dumadaloy na tubig sa loob ng 15 minuto.
3. Disimpektahin ang sugat gamit ang alcohol o kaya iodine.
4. Komunsulta sa doctor o kaya pumunta sa pinakamalapit na Animal Bite Treatment Center (ABTC) upang mabakunahan.

A. Bilang ng mag-aaral na nakakuha ng 80% sa pagtataya.

B. Bilang ng mga-aaral na nangangailangan ng iba pang gawain para sa remediation

C. Nakatulong ba ang remediation? Bilang ng mag-aaral na nakaunawa sa aralin. Did the remedial lessons work?
D. Bilang ng mag-aaral na magpapatuloy sa remediation

E. Alin sa mga istratehiya ng pagtuturo ang nakatulong nang lubos?

F. Anong suliranin ang aking naranasan na nasulosyonan sa tulong ng aking punong-guro / prinsipal at superbisor?

G. Anong kagamitan ang aking nadibuho na nais kong ibahagi sa mga kapuwa ko guro?

TEACHER’S HANDOUT

Ang rabies ay sakit na nakamamatay na sanhi ng isang virus at mikrobyo. Ito ay mula sa hayop at maaaring mahawa ang tao sa pamamagitan ng laway kapag nakagat ng aso o pusa na may rabies infection.

Maaari ding maisalin ang rabies virus kapag nalagyan ng laway ng hayop na may rabies infection ang sariwang sugat, gasgas, at maging ang ibang parte ng katawan ng tao tulad ng mata, ilong, at bibig.

Sa Pilipinas, karamihan sa mga nabibiktima ng rabies ay mga bata. Bagaman walang lunas ang rabies, maaari itong maagapan at maiwasan.

Upang maiwasan ang rabies, dapat pabakunahan ang alagang aso at pusa laban sa rabies kapag ito ay tatlong buwan na, at kada taon pagkatapos nito.

_Kung sakaling makagat ng aso o pusa, dapat gawin ang mga sumusunod:_

1. Hugasan agad ang sugat ng sabon at dumadaloy na tubig sa loob ng 15 minuto.
2. Pahiran ng tintura de yudo o anumang gamot pang sugat.
3. Kumunsulta sa pinakamalapit na Animal Bite Treatment Center o ABTC.

BACKGROUND INFORMATION

The main health risk to pupils associated with other animals includes infections (The Royal Pupils’s Hospital Safety Centre, 2008). These infections can be caused by:

- bites and scratches;
- handling of birds; and
- eating food that has been infected by animal feces.

HOW TO AVOID ANIMAL-RELATED INJURIES?

1. Do not play with the pets without the supervision of an adult relative/ person.
2. Avoid petting stray or strange animals.
3. Do not approach the pet when it is sleeping or eating.
4. Do not play with pets that you do not know.
5. Do not tease pets.
6. Do not poke or inflict any form of pain.

Sabado ng umaga, nagpaalam si Bino sa kanyang Nanay upang ipasyal si Bantay sa palaruan. “O sige anak, huwag mong aalisan ng tali si Bantay at baka makagat,” ang bilin ni Nanay.

Sa ospital...

At simula noon, hindi na nila ginagambala si Bantay kapag ito ay kumakain o natutulog. Si Bino at si Buboy ay naging mabuting tagapag-alaga ni Bantay. Itinuring ni Bino si Bantay na isa sa kanyang kaibigang tunay.

ACTIVITY SHEET 1

I. OBJECTIVE: Makabuo ng larawan ng isang hayop gamit ang pinagdugtong na mga bilog.

II. MATERIALS: Larawan, Lapis, Gamit pangkulay

III. PROCEDURE:

KILALANIN ANG IYONG ALAGA:
Pagdugtungin ang mga bilog para makabuo ng larawan ng isang hayop. Maari rin itong kulayan kung nais.

IV. ANALYSIS:
1. Anong hayop ang inyong nabuo?
2. May alaga ka din ba katulad nito?
ACTIVITY SHEET 2

I. OBJECTIVE: Matukoy ang mga larawan ng hayop at magaya ang tunog na nalilikha ng mga ito.

II. MATERIALS:
   ➢ Larawan ng aso, pusa, ahas, ibon at baka.

III. Procedure:

   PARADA NG MGA LARAWAN NG IBA'T IBANG HAYOP
   Tukuyin ang sumusunod na mga larawan at gayahin ang tunog na kanilang nalilikha.

IV. ANALYSIS: Ayon sa larawang ipinakita, alin ang mapanganib na alagaan? Bakit?

**TEACHER’S HANDOUT**

Merriam Webster defines violence as the exertion of physical force so as to injure or abuse; an injury by or as if by distortion, infringement or profanation; intense, turbulent or furious and often destructive action or force. According to the World Report on Violence and Health, it is the intentional use of physical force or power, threatened or actual, against oneself, another person, or against a group or community that either results in or has a high likelihood of resulting in injury, death, psychological harm, development, or deprivation.

**UNWANTED BEHAVIOR:**
- unpleasant acts of an individual towards others
- undesirable manner of a person
- disagreeable deeds
- examples: disrespectful behavior, shouting, cursing, covetousness, laziness, irresponsibility, impatience

**GOOD & SAFE TOUCHES:**
1. Playing and giving high fives to your friends.
2. Receiving tightest hugs from your father.
3. Doctor gives you a check up in the presence of your parents.
4. Getting hugs from your family member.
5. Having pats from your grandfather.
6. Mother gives a refreshing bath.

**UNSAFE TOUCHES:**
1. Trying to touch your private parts.
   If anyone tries to touch your private parts:
   - They might scare you.
   - They might make you a promise to keep it a secret.
   - They might beat you.
   - They might hurt you and make you cry.
   - They might hit you.
   - They might pinch you on various places.

**MY SAFE CIRCLES:**
- Father
- Grandfather
- Brother
- Mother
- Grandmother
- Sister
- Teacher

**TOUCHING RULES:**
1. No one should ever touch your private parts except to keep you clean and healthy.
2. Make sure nobody touches you on your private parts except for your parents.
3. If you feel uncomfortable about what someone is doing, say NO! Be assertive if you can.
4. Go to safe place with other people and tell it to an adult you trusted.
HOW TO AVOID DOG BITES:

1. Leave dogs alone when they are eating. Do not go near their food.
2. Do not grab and frighten the dog.
3. Never surprise a sleeping dog.
4. Do not enter an unknown dog’s yard without the owner being present and the dog being aware of your presence.
5. Do not touch any dogs unknown to you.
6. Always ask the owner if you want to pet the dog.
7. Don’t play with puppies especially when the dog is feeding them.
8. Do not run away from unknown dogs, as this can make them more likely to attack.
9. If a strange dog comes close, stand still and keep quiet. Imagine you are a tree.
10. If a dog attacks, curl up into a ball, with your head tucked in. Keep still and be quiet. Imagine you are a rock.
11. A rabid dog attacks and bites. It is uncontrollable. If it show signs of rabies, stay away from it. Warn other people to keep away and contact the local authorities (e.g. local veterinary workers, animal welfare organizations, police officers, so they can come and manage the dog.
12. If it attacks, throw something else to bite, like a bag, a shoe or the branch of a tree, and move away slowly before attracting attention for help. Do not scream and make a loud noise.
